ONLY ONE BAR 'TWIXT HER AND ALTER;  
BOWNE'S DIVORCE BRINGS WEDDING NEAR

Mrs. Frances Hewitt Bowne.

Trenton, N. J., June 4.—(Special)—The fifth instalment of the sensational Bowne-Manning-Fuller serial, which was published from time to time in the newspapers during the past year has created world-wide interest, is shortly to be given to the public in the form of a divorce action in this city. The complainant is Walter Bowne, the defendant his pretty wife who is now in Hongkong and who will offer no resistance to the suit.

The first and second instalments had to do with the elopement of Mrs. Bowne and Jordan Lawrence Mott 3rd, of the millionaire ironmaster's family, who slipped away together on a British freighter for Hongkong last May, with Hector Fuller, soldier of fortune and war correspondent in hot pursuit. Though offered \$25,000 to bring young Mott back to this country, Fuller returned last fall, admitting failure.

The third instalment detailed a fight last summer between John Pearce Manning, a wealthy young broker of Flushing, and Bowne. After his wife's elopement, Bowne, in deep sorrow, sought sympathy at the Manning home. Mr. Manning was deeply sympathetic.

RIOT IN THE  
HUNGARIAN DIET

Budapest, June 5.—The announcement in the chamber of deputies yesterday of the resignation of the Hungarian premier, Dr. Ladislaus Von Lukacs, and his cabinet was preceded by scenes of uproar and violence surpassing any yet witnessed in this turbulent house. The authorities, anticipating trouble, closed the approaches of the parliament building to the public by strong bodies of infantry and cavalry supported by a machine gun and detachments of police.

When Count Tisza, the speaker, and Premier Von Lukacs entered the chamber, they were greeted by the opposition with shouts, jeers and insulting epithets. After several unavailing attempts to obtain quiet, the speaker ordered the expulsion of several opposition deputies and summoned the parliamentary guard to eject them.

One guard seized Deputy Leher by the collar and called him offensive names. "You scoundrel, this is indecent," exclaimed Count Von Hedervary, the former premier, addressing Captain Geroc, commander of the guard. Geroc drew his saber and struck the count thrice on the head. His face streaming with blood, the ex-premier staggered and fell into the arms of a friend. Cries of "murder" resounded through the hall. The fury of the opposition deputies was almost uncontrollable until it was ascertained that the injuries of Count Von Hedervary were only superficial.

Mrs. Manning, so her husband averred, was deeply sympathetic also. One evening, about a month after Mrs. Bowne and young Mott eloped, Manning discovered his wife and Bowne in a secluded corner of a New York hotel dining room. Instantly there was a fight. Bowne, badly whipped, fled from the hotel. So did Mrs. Manning.

The fourth instalment had to do with the divorce proceedings which freed Mr. Manning from his wife. Bowne is said to have been mentioned as co-respondent. Now Bowne is about to secure his divorce here. Mrs. Bowne has placed no obstacles in his way. According to the late news from Hongkong, she is rather pleased to think that one more obstacle to her final union with young Mott has been removed.

Bowne's future domestic plans are unknown. It is quite certain, however, that his wife and young Mott will get a divorce. But Mrs. Mott, who was Carolyn Pitkin of Braintree, Mass., said a few months ago that on account of their child she would not now sue for her freedom.

JUDGMENT AFFIRMED  
IN MARBLE DISPUTE

Judgment of the district court in favor of the Utah Black Marble company against the American Marble company, appellant, and Cornelius Cedarstrom and others, to recover possession of certain placer claims in Utah county, is affirmed in an opinion handed down yesterday by the supreme court.

The contention of the Black Marble company was that Cedarstrom and his associates had filed on certain placer claims with the distinct understanding that they were to hold the claims in trust for the company, of which they were directors and stockholders. Later, it was alleged, Cedarstrom and his associates withdrew from the plaintiff company and formed the American Marble company, to which they transferred the placer claims.

The district court decreed that the claims should revert to the plaintiff and this is affirmed by the supreme court.

The intermountain section is a vast empire of great wealth and still undeveloped. In his opinion he said this section, coupled with the vast Oregon interior, is destined to be the mecca for hundreds of thousands of settlers. While at Ontario, President Hill bitterly denounced the reclamation service, especially attacking Frederick Newell, director of the service, for his alleged neglect of settlers on western irrigation projects.

"NIGHT RIDERS"  
ARE AGAIN BUSY

Henderson, y., June 5.—A reign of terror more serious than similar depredations of recent years is threatened by "night riders" against the tobacco growers of this district. In the last week there have been minor depredations by organized bands, and yesterday threatening communications from the "riders" were received by William Elliott, president of the Stemming District Tobacco association, and Leigh Harris, editor of the Henderson Daily Journal.

In the letter to Harris, the "night riders" assert they are thoroughly organized and will prevent the production of a single pound of tobacco in this district this season. They announce that they plan to destroy beds, plants and tobacco in barns.

Farmers in this section are arming.

HOLD WOMEN ON  
MURDER CHARGE

Chicago, June 5.—Mrs. Louis Van Keuren was held to the grand jury on a charge of murder in connection with the fatal shooting of her husband, John B. Van Keuren, from whom she had been separated since last March, in the doorway of her apartment early yesterday. George Penrose, who admitted he had visited Mrs. Van Keuren's home shortly before the shooting was held as accessory.

Mrs. Van Keuren told the coroner's jury she had fired her revolver when someone broke the glass window over the door at the entrance of the house. She said she believed it was a burglar. The bullet penetrated her husband's brain.

Private detectives who had been in the employment of Van Keuren testified at the inquest that Penrose, a jeweler, had gone to Mrs. Van Keuren's home with her Tuesday night after closing his store. The detectives then telephoned Van Keuren.

Harry Van Keuren, brother of the dead man, at whose home he had been living, testified that his brother had left home after receiving a message from the detectives.

"DRYS" APPEAR TO  
RULE SMITHFIELD

Logan, June 4.—There will probably be no liquor election at Smithfield this year, as the city council has refused to call the election or to make any provision for it. This action was agreed upon after enough signers had been induced to take their names from the petition to render it insufficient as a basis for an election.

B. F. Grant, chief of police of Salt Lake, visited Smithfield on Sunday and advised the course taken. The "wets" in that city came to Logan today to consult counsel relative to testing the matter in the courts, but no decision had been reached this evening. The Smithfield petition, when filed had enough names upon it, but on Monday more than forty signers went to the mayor and asked that their names be taken off (and this left the petition shy).

VETERANS MUST SHOW  
PROPER CREDENTIALS

The G. A. R. committee on the Gettysburg celebration decided that those who desire transportation to the celebration must exhibit papers of discharge or pension certificates if possible. If this is not possible, affidavits must be presented as to length of service.

Those veterans who may not seem to be physically able to make the trip to Gettysburg will have to be examined by Dr. A. K. Smith, the medical director of the G. A. R. At the committee meeting, Lucian H. Smyth, chief deputy United States marshal, reported on a trip recently made by him to Harrisburg, where he met with the national and state committees on the celebration. Mr. Smyth also told of his visit to the Gettysburg battlefield.

BOUNTIFUL LAD  
CHOKES TO DEATH

Bountiful, June 4.—Edward Day, 8-year-old son of Seth Day, blacksmith of Bountiful, choked to death today on a rock.

The boy only recently recovered from smallpox and was still under quarantine at the family home here. His father had bought him a "flipper" for throwing stones and he was in the front yard shooting at birds flitting about a tree. Filling his mouth with small stones, he reached up with his "flipper" to shoot, then fell to the grass writhing.

Seth Day, the father, ran to him and began working over him, calling for help. A physician could not be found and the boy choked to death.

"Learn One Thing Every Day."  
No. 4. SCARLET Tanager

Copyright, 1913, by The Associated Newspaper School, Inc.

"Chip-bang!" The emphatic note comes from the cool oak shade. There is the author among the new leaves, in a dress as pronounced as his call, an atom from the far tropics drifted back to us on the wings of May, with his gorgeous new suit of scarlet trimmed with pure black wings and tail. What a contrast—scarlet against the new green and deep blue sky! It takes sharp eyes to discover this gallant's humble mate in her dress of dull green, but at last we find her, sitting quietly, apparently absorbed in admiration of him, or perhaps speculating upon which branch to place the frail nest.

Sometimes a tree in an abandoned orchard is selected; but more frequently the site is chosen in the deep wood. A couple of weeks after the delicately speckled greenish-blue eggs are laid the young appear, and in the strenuous care of a family both parents find little time for anything else. When the youngsters are able to care for themselves the father slips away out of sight, and we are tempted to think he has started on the return journey southward. But he is only changing his nuptial coat for one of green. During this transition he assumes a remarkably dapper effect of green and red patches, due to the scarlet feathers being supplanted by the traveling dress, and if we look through his favorite haunts in the late August or early September days we shall find him dressed almost exactly similar to his mate and ready for the trip to South America.

Lacking the sprightly manner of more active birds, and possessing slight vocal ability, the tanager is seldom noticed, and is often considered rare in localities where he is really common. He is particularly partial to oak woods, and spends hours hunting industriously a certain small worm found among the young oak leaves. At other times he sits quietly on a branch in an absorbed sort of way, and taken all in all, is modest, unassuming, and minds his own business. Indeed, he is so preoccupied at times as to allow a very near approach without taking alarm. These birds are very susceptible to cold, and are sometimes so numbed by a sudden drop in temperature as to permit their being taken in the hand without resistance.

The tanagers are increasing in number, and the fact that the male makes the journey south in a protective dress unquestionably is one of Nature's methods of preserving the species. While Nature strives to keep alive, man steps in and destroys. Every year the numerous lighthouses along the coast collect their toll of migrating birds, and not long ago hundreds of tanagers were killed against Fire Island Lighthouse.

Every day a different human interest story will appear in the Standard. You can get a beautiful intaglio reproduction of the above picture, with five others, equally attractive, 7x9 1/2 inches in size, with this week's "Mentor" in "The Mentor" a well known authority covers the subject of the pictures and stories of the week.
